# Company Overview

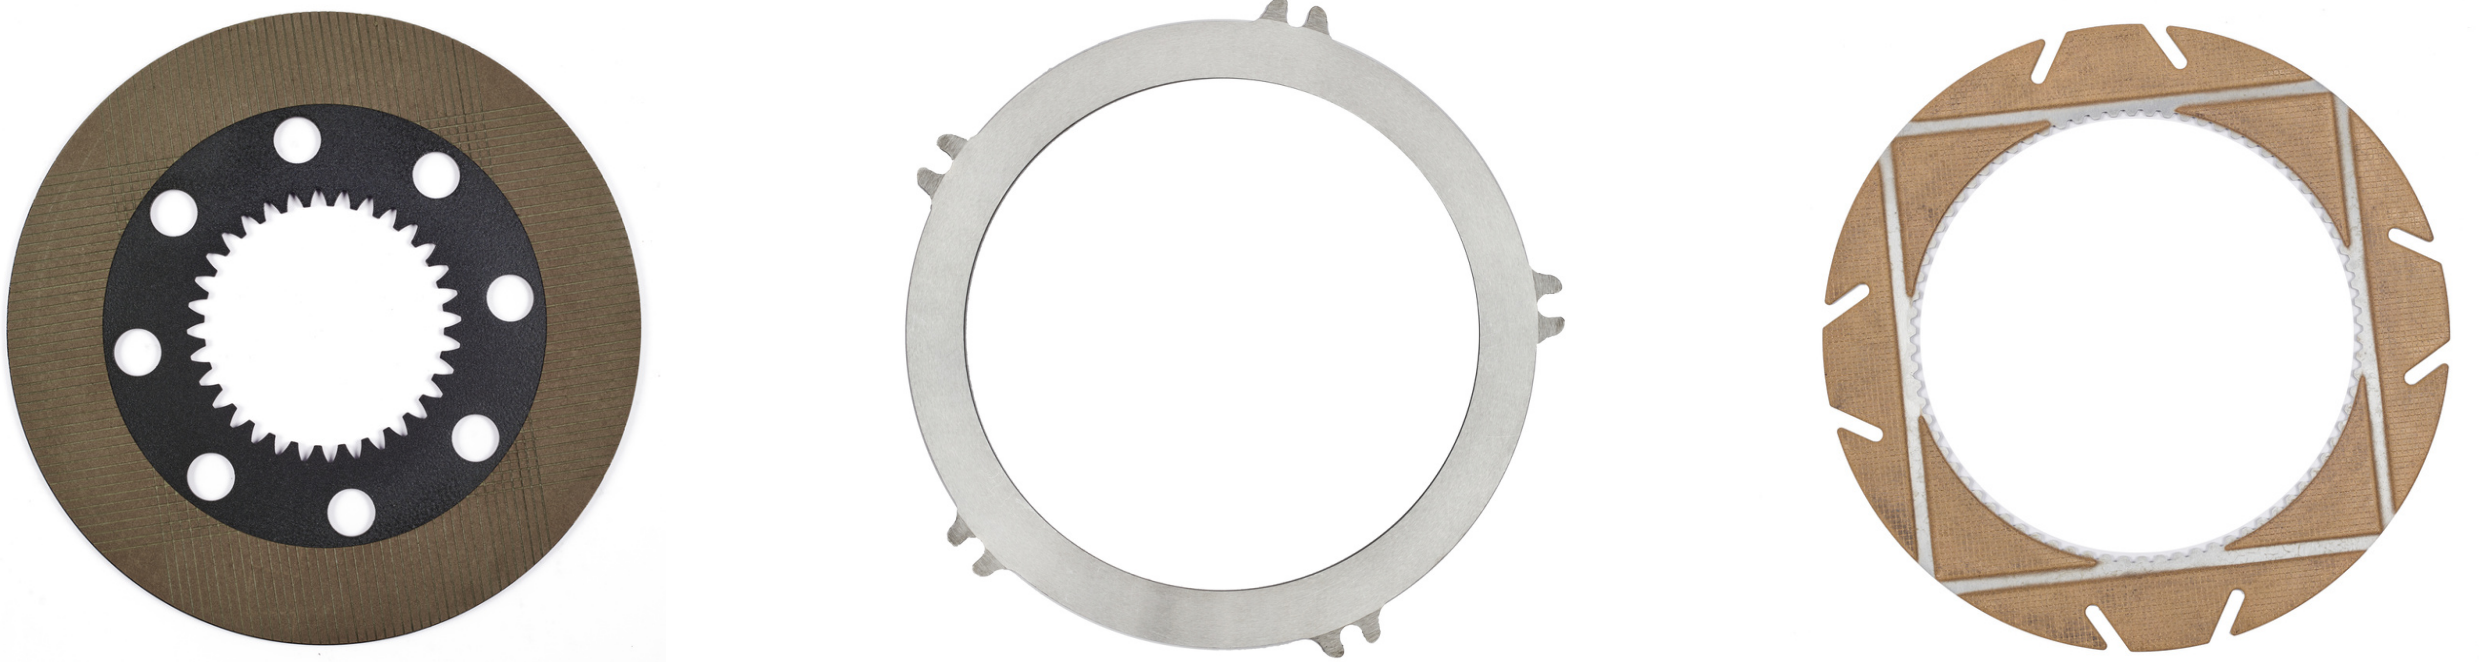

---

Providing services in distribution and production of friction discs, Aydinonat Friction Products has adopted the principle of being a leading company in its sector with its reliability and service quality.

The basis of our company's quality policy is to produce and sell the desired reliability and quality product with a business understanding based on trust, which prioritizes customer satisfaction.

The primary goal of our company's quality policy is customer satisfaction.

In this sense, we work with a service approach that considers customer requests and needs at all stages, from the supply of the product to the delivery to the end user. For this reason, we aim to respond to customer problems and complaints as soon as possible.

The participatory staff structure that has adopted the team spirit is one of the most important principles of our quality policy. Our Company, which has grown and developed from the family business culture and attained its corporate identity, has been performing teamwork and solidarity with its employees in the best way since its establishment.

Our senior management takes care to ensure the continuation of the love, respect and trust established over many years among its personnel. By preparing an effective training program for the employees, seminars, courses and in-service trainings are planned to increase their professional knowledge and skills.

In order to ensure the effectiveness and continuity of our Quality Management System, which we have established as a guide in achieving our goals, it is adopted as a principle to carry out control and continuous improvement studies and to provide Quality Management System trainings to our personnel when necessary.
